EDUCATION

BTech in Information Technology

College of Engineering Guindy, Anna University, Chennai.

Aug 2023 - Present

CGPA : 8.20

HSC (2023)

Saradha Higher Matric Secondary School, Gingee, Villupuram district

96.17 %

SKILLS

Programming Languages : Python, Java, C++, C

Full Stack Development : HTML, CSS, JavaScript, ReactJS, Vite, Node.js, PostgreSQL, MongoDB

Tech Skills & Tools used : Git, Github, VS Code

Soft Skills : Analytical Thinking, Communication, Teamwork, Time Management

PROJECTS

SpareChange [Github](#)

Full Stack Development (PERN + ML Integration)

Designed and developing a full-stack micro-savings platform that rounds transactions and allocates spare change into savings, investments, or donations.

- Built responsive frontend using ReactJS and backend APIs using Node.js.
- Designed database schema using PostgreSQL for transaction tracking.
- Implemented REST API architecture with user authentication and role-based logic.
- Integrated ML-based recommendation system for optimized allocation strategies.

SpareParts Management System [Github](#)

DBMS

- Developed a database-driven system for managing inventory and orders.
- Used PostgreSQL for structured data storage and efficient querying.
- Performed data organization and retrieval to support reporting and operations.
- Enabled role-based access for structured data handling.

Ingre2Recipe [Github](#)

ML

- *Implemented ingredient parsing and matching algorithms.*
- *Integrated ML-based recommendation logic for recipe suggestions.*
- *Designed modular architecture for scalability and future dataset expansion.*
- *Focused on improving user decision-making through intelligent suggestions.*

Git Simulator [Github](#) [Website](#)

Advanced DataStructures

- Developed a real-time Git Graph Simulator using C++ and Crow to visualize commits, branches, and merges, improving understanding of version control workflows.

ACHIEVEMENTS AND CERTIFICATIONS

- Coordinator in NSS - Coordinated Village Camp at Puliymbakkam, Kanchipuram District led community outreach, organized cleanliness drives, and contributed to rural development initiatives.
- [Google Cybersecurity Professional Certificate](#)
- [Google Cloud Engineering Certificate](#)
- NPTEL course - [Python for Data Science](#)(85%)
- Completed three courses in LearnTube platform - [C Programming](#)
 - [C++ Programming](#)
 - [Data Structure and Algorithm](#)
